

Ariana’s original garden is 7 m long and 3 m wide. She wants to increase **both** the length and the width of her garden by a certain amount of meters.

Emily and Mauricio found the area of Ariana’s new garden using two methods.

1. **Write a sentence** that describes how each method finds the area of Ariana’s new garden given an unknown increase in length and width.

A. **Method 1:** _____

B. **Method 2:** _____
